Suneesh C O

MERN Stack Developer

As a MERN stack developer, I proficiently leverage MongoDB, Express.js, React, and Node.js to craft scalable, responsive web applications. Skilled in full-stack development, I create dynamic user-centric experiences, employing modern technologies to drive efficient and innovative solutions.

Projects

Homify, Website

Experience a comprehensive online platform offering seamless land and home purchasing opportunities. Our website not only facilitates property transactions but also features integrated live chat support for instant assistance, ensuring a smooth and interactive user experience.

SCO Sports, Website

An innovative online platform specializing in footwear retail, offering a diverse range of stylish and high-quality shoes for every occasion, ensuring a seamless shopping experience for shoe enthusiasts worldwide.
